

weather to travel

If you don't want to get hit by hurricanes, saturated by storms, or be frozen and frostbitten on the day of your dreams, it's wise to check the best times to travel to your destination. Winters in Europe, some parts of the U.S.A., and Canada can be very cold and, as well as being uncomfortable, the inclement weather conditions can delay and upset your travel plans. In tropical climes avoid the rainy and hurricane seasons as these can literally make your big day a washout and cause havoc with transportation and flights. High humidity and excessive heat can also cause problems and may affect you or cause you to feel unwell. Remember when traveling to places such as Australia and New Zealand that the seasons are reversed. June, July, and August are the winter months in that part of the world.

Bahamas

Temperature Range: 79°F to 90°F

Best Time: December to March

Caution: May to October wettest months. July and November possibility of hurricanes

British Isles

Temperature Range: 28°F to 79°F

Best Time: May to September

Caution: November to February winter. Weather unpredictable all year round

Canadian Rockies

Temperature Range: 32°F to 73°F

Best Time: February to March

Caution: January very cold

Cape Town

Temperature Range: 63°F to 79°F

Best Time: June to March

Caution: April and May tend to be rainy

Cayman Islands

Temperature Range: 84°F to 90°F

Best Time: November to May

Caution: June to October chance of tropical storms

Channel Islands

Temperature Range: 41°F to 75°F

Best Time: March to October

Caution: December and January cool but rarely cold

Cook Islands

Temperature Range: 64°F to 84°F

Best Time: December to May

Caution: November to April rainy season

Cyclades Islands, Greece

Temperature Range: 57°F to 90°F

Best Time: May to September

Caution: Winter high rainfall

Cyprus

Temperature Range: 43°F to 99°F

Best Time: May to November

Caution: December to April high rainfall, tends to be chilly

Dominican Republic

Temperature Range: 66°F to 88°F

Best Time: December to April

Caution: May to November rainy season, possibility of hurricanes

Fiji

Temperature Range: 84°F to 90°F

Best Time: December to May
